Dear Alex:

To yours of the 17th.

It will be good to see you again and we are looking forward to it.

Scheduling may be a problem. We'll be away in Europe ourselves after about July 15. Can you make it here by then on your way east? If not, we'll see you in Montreal at the Congress and perhaps you can visit Madison afterwards. I know Crow especially will want to meet you too.

All best wishes,

Yours sincerely,

Joshua Lederberg
Professor of Medical Genetics
